

Wade Zwicker, VP of Development

Wade Zwicker is Vice President of Development for Cameron Communities, a division of Cameron Corporation. With over 25 years as a consulting engineer, Wade has provided design, construction, and project management services on land development projects including; residential, commercial, and industrial projects in Alberta, Saskatchewan, and the northern Territories.

Wade oversees the planning and engineering for all of Cameron's residential land development projects and coordinates with the Cameron Corporation on projects with multiple land uses. Wade also performs preliminary engineering analyses and budgeting for new land acquisitions and he provides technical input for development planning. Wade holds a Bachelor of Science in Civil Engineering from the University of Alberta. He is an active volunteer and member of the Canadian Society of Civil Engineering (VP Administration Coordinating Committee), Urban Development Institute, Association of Professional Engineers, and Geoscientists of Alberta. Wade is married with two adult children.
